

**Washington Gas
Energy Services**

A Washington Gas Affiliated Company

April 15, 2010

Re: PEPCO Account No.

Dear

Thank you for selecting Washington Gas Energy Services, Inc. (WGES) as supplier for electricity generation and transmission service for your PEPCO account referenced above. WGES will forward your electricity supply enrollment to the Utility for processing to ensure your account meets certain eligibility criteria. You will receive written notification from WGES confirming the status of your account shortly.

Once your account is accepted for enrollment, WGES will begin to supply electricity to your home, according to the terms of your WGES contract, starting with the next meter reading (as determined by PEPCO) and continuing through the end of the term you selected at enrollment. The WGES Electricity Supply Service Agreement Terms and Conditions are printed on the reverse side of this letter – please keep it for your records.

Your fixed price of 9.6¢ per kWh will cover your electricity generation and transmission service, regardless of the season, with 5% of your electricity generated from CleanSteps™ Windpower. As always, PEPCO remains responsible for distributing and billing your electricity. For your convenience, WGES charges will be included on your PEPCO utility bill.

Should you have any questions about your electricity supply service program or details of this letter, call our Customer Care Specialists toll free at 1-888-236-9437 from 7:00 a.m. to 7:00 p.m. weekdays.

Sincerely,
WGES Enrollment Processing Center

RE: Confirmation of Electric Service Changes
2710-5550-4-2-01

Dear Customer:

We have been notified that you selected Washington Gas Energy Services as your new Supplier for the Maryland Electric Choice Program.

You will continue to receive one bill from Pepco that will now reflect both Pepco distribution charges and your electric Supplier charges. Your new Supplier will begin supplying your electricity on May 27, 2010.

If the above information is correct, no action is required. If you have any questions, you must contact your Supplier.

Pepco will continue to deliver electricity to your home through the existing poles and wires and restore service in the event of any disruption, such as storm damage. In the event you lose power, please call Pepco's Outage System toll free at 1-877-PEPCO-62.

We look forward to continue providing you with safe, reliable service.

Sincerely,

Customer Operations Department
Pepco
